

MY TRIP to the fishing pond!

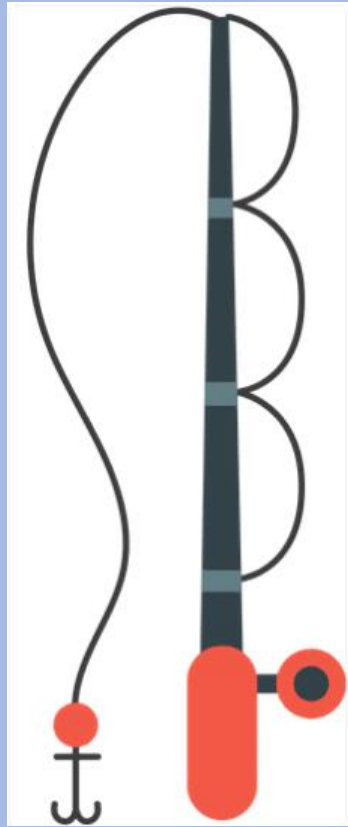

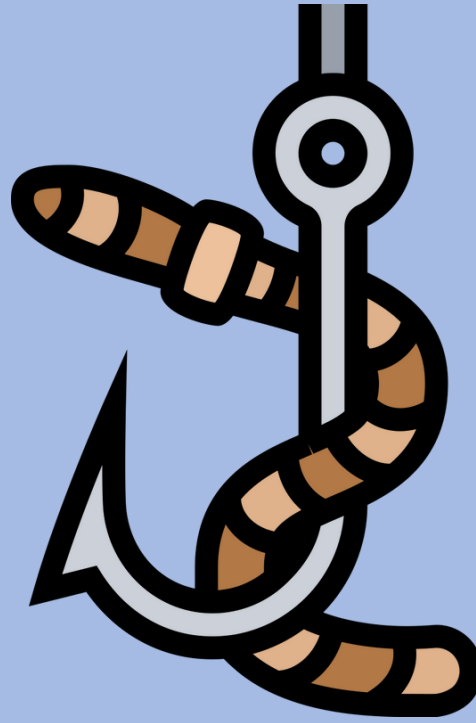

I will visit the Furnace Run Metro Park.
There will be a pond where I can try
fishing. FUN!

I will obey the fishing rules so I can be safe and have fun.

Rule #1: I will hold my fishing pole pointing up to the sky. I will only use my pole for fishing.

Rule #2: I will find a buddy to put the worm on my hook.
I will be careful with the sharp fish hooks.

What is casting?

Casting how you get your hook out into the water.

1. Worm on hook
2. Face the water
3. Have 1 foot of line hanging from the pole
4. Carefully bring the pole straight up
5. LOOK BEHIND YOU for people or trees.
6. Tilt the pole back then swing it forward so the tip is pointing towards the water.

You did it!

A fisherman brings his pole back before swinging it forward to cast

Rule #3: I will look for trees and friends before I cast.

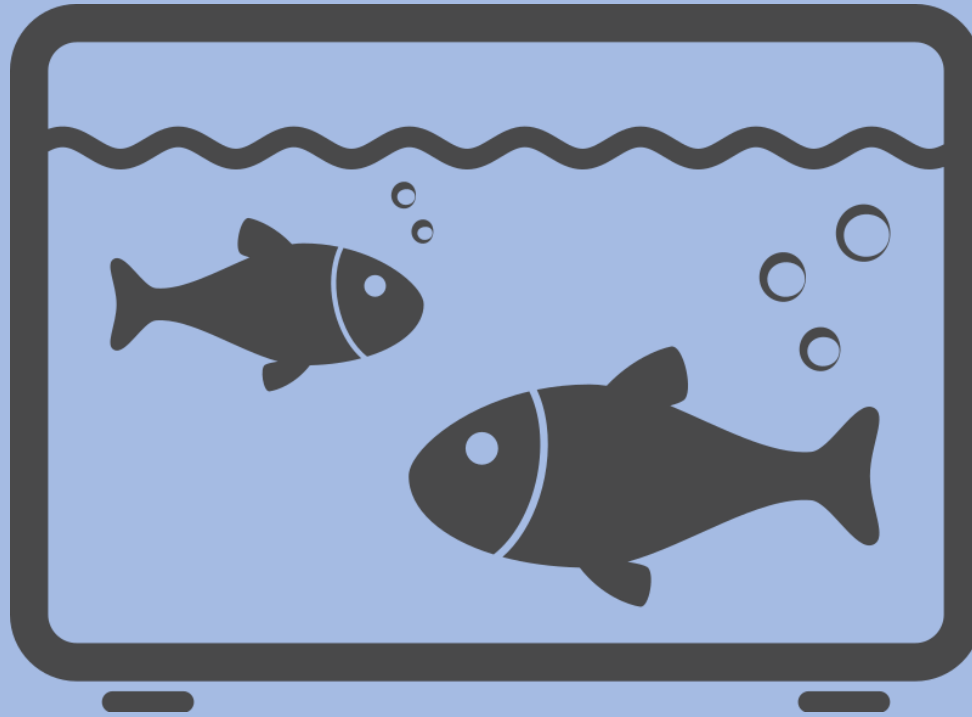

I will only cast if I am away from trees and friends.

Rule #4: I will watch where I am walking.
I will give space to others who are casting.

Rule #5: I will keep my feet in the grass.
The rocks around the pond could be slippery.

Rule #5: I will release the fish or put it in the aquarium at the park. I know the fish will not come home with me.

I will make fun fishing crafts.

I can play yard games in the field.

I can go for a walk with my family on the trails.

I will have fun on my fishing trip!
